### We've Got Your New Construction Painting Project Covered

Painting a new construction project, or a home undergoing remodeling, requires two special considerations: high quality and a firm commitment to meeting deadlines. Picture Painting & Decorating covers both, every time. As a new homeowner, the last thing you want holding up your move-in date is the interior or exterior painting not being finished on time, or having to deal with painting problems. You deserve better. At Picture Painting & Decorating Home Improvements, we have extensive experience working with contractors and home owners on new construction paint projects. Our processes are designed to deliver top quality results on time and on budget. We are experts at scheduling just the right team for each project. We also play nicely with others. Most new construction painting involves multiple work crews on site at the same time working diligently on a common goal, so proper coordination is essential in order to deliver on time.
